Another Icon. Working closely with Rickie Fowler to design, develop and create the PROADAPT Δ MID, a premium full-grain leather shoe with a fashion-inspired mid-cut height built on top of the PROADAPT Δ cleated outsole.

The ADAPT Foam in the heel provides a lightweight solution for stable cushioning that delivers unrivaled ground feel and energy return. The Topline Chassis atop the ADAPT Foam and wrapping around the heel provides extra stability and torsional rigidity needed for the swing. The outsole features Dual Density Tornado cleats with four PWRADAPT PODs in the heel allowing each cleat to interact with the ADAPT Foam independently. The upper is a premium, full-grain leather, $\frac{3}{4}$ height silhouette that we worked closely with Rickie to refine.

With no expense spared for design or performance the PROADAPT Δ Mid will have you feeling like the local pro wherever you tee it up.

- » **ADAPT Foam** - All new proprietary foam created for PUMA GOLF provides stable cushioning, utilizing a mixture of the highest-grade EVA Cushioning mixed with Styrene - an impact-resistant foam that provides excellent dimensional stability. The combination of the two materials provides you with both high energy return and ground feel.
- » **PROADAPT OUTSOLE** - Tour-proven full-length TPU outsole provides next level traction and support throughout your swing, while flex-grooves in key areas improve natural movement and provides unrivaled comfort for walking all day.
